

NoSQL – Key-value storage – Redis

Michal Barla

Simple use case

- Store something using a key
- Retrieve it later using the same key
- Do it super, but really like super fast

https://try.redis.io

- HyperLogLog (set cardinality estimate in redis)
 - <https://robots.thoughtbot.com/hyperloglogs-in-redis>
- Pattern: Navigation session using redis
 - <https://redis.io/commands/expire>
